How to Use

The patterns may be colored, cut out, and glued to the basic puppet form, or they may be used as templates with colored construction paper.

Use the puppets to provide a variety of opportunities for the practice of oral language skills.

- Students may retell a story using one or more puppets.
- Groups may create puppet shows based on familiar stories.
- Individual students or small groups may create original puppet shows.
- Students may use animal puppets to accompany oral reports about the animal.
- Beginning readers may use the finger puppets as they learn their initial sounds.
